SOUND SENSE.

A Letter From The Most Prominent Kentucky Wheeler.

The Duty That Confronts The Wheeler.

NEWSPAPER, Sept. 4, 1890.

Dear Sir: I have your letter of Sept. 2, and beg to state in reply to the reference to my candidacy for Congress. I have never been a candidate for Congress. Have never so far as I have been informed been nominated for this position by a "Citizens Party" nor by any other party, and of course have never had the opportunity to "positively" or otherwise decline such nomination. Least the above taken without explanation might be misleading. I wish to state further that I have frequently been communicated with by conversation and by letter on the Congressional matter and have uniformly stated that I would not be a candidate. I have also stated that I was opposed to any third party nomination, or any nomination by our order, "The Farmers' and Laborers' Union," acting as an independent political party; and for the following reasons:

1st, It was not contemplated in our organic law.

2nd, The organization being made up of members of all parties and the obligation distinctly stating that the duties imposed would not conflict with religious or political opinions, each member must be left free to act with the party of his own choice.

3rd, In my judgment it would prove detrimental to the best interest of the order. Though vigorous, flushed with numbers and full of enthusiasm, as an organization we are still in a formative stage, not solidified and not fully agreed as to purposes and methods. We need more education, more information, a more thorough interchange of views and feelings, a more intimate acquaintance with the true causes of agricultural depression and a substantial agreement as to the most available remedies.

We cannot therefore afford to launch out into the untrodden sea of political adventure. There can be in a country like this but two great national parties. If we would get what we want it must be through the aid of one or the other of these parties. We must decide which is nearest in accord with our views and most likely to aid us in securing needed legislation. As a Democrat and looking from my standpoint I see no party so available for our aid as the Democratic party. It is the people's party and in perfect accord with many, in fact most, of our purposes. It favors reduction of taxes, the economical administration of the government, free coinage of silver, increase of circulation medium and a free outlet and more extended markets for our surplus products. To cut loose from our present party affiliation is to drive from us many of our best friends even among farmers, who will never consent to the disruption or the Democratic party.

hardly necessary to say that I would advise against making any nomination for Congress for the next term. Mr. Ellis, who is the only candidate, has made us an able and faithful representative. He stands substantially upon our platform and surely deserves our good will and endorsement.

What I have said is simply a synopsis of my individual opinion, given with the kindest feelings to all and with no disposition to dictate to others. Still it is the opinion of one who has thought much upon these subjects and one who feels as deep and abiding an interest in the welfare and prosperity of the tillers of the soil and other laboring classes and who has labored earnestly and faithfully for their good as any man in the State.

Truly and Fraternally,
J. D. CLARY.

Drunkenness—Liquor Habit—In all the World there is but One Cure, Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been cured who have taken the Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. No harmful effect results from its administration. Cures guaranteed. Send for circular and full particulars. Address in confidence, GOLDEN SPECIFIC CO., 185 Race Street, Cincinnati, Ohio.

They go it Blind.
She—How do you manage to think among all the noise in the Stock Exchange?
He—We don't think—Lippincott's.

THE FIRST SYMPTOMS OF DEATH.
Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of poisoned blood. No matter how it became poisoned it must be purified to avoid death. Dr. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poisons. Sold under a positive guarantee.

H. B. GARNER, Druggist.

No Cause for Thanks.
"Did you give the captain a vote for thanks?"
"No. Why should we? He didn't run us out on an iceberg or strike a net."—Chatter.

USEFUL AND SUGGESTIVE.

—Gum camphor will speedily clear the house of cockroaches.

—Great improvement will be found in tea and coffee if they are kept in glass jars instead of tin boxes.

—Artificial complexions are said to be on the increase. Very likely since where they are adopted the wearer soon has no other to speak of.

—Mashed Sweet Potatoes—Wash the sweet potatoes and boil them till they are tender, then take off the skins and mash them, adding salt, pepper and butter. Put them in a dish in a hot oven for five minutes before serving.—Housekeeper.

—Cream Pie.—Beat four eggs with a teaspoonful of sugar, add half a pound of butter, two tablespoonfuls of flour and a pint of milk; mix well and pour over a pint of boiling milk; stir until cool, flavor with extract of vanilla. Bake in deep pans lined with rice crust.—Indianapolis Sentinel.

—Horse-Blind.—Big the young, tender roots in the spring and grate fine. Place in glass cans and pour over acid good elder vinegar to cover it, stirring it well that the vinegar may penetrate thoroughly from top to bottom. Can seal and keep in a cool place.—Housekeeper.

—Melon Salad.—Slice a melon; lay slices of onion between and cover it closely and keep in a cool place half an hour; remove the onion just before serving, and add pepper, salt and a little cayenne and one teaspoonful lemon juice to one teaspoonful of vinegar and two of oil, mix all well together and pour over the melon.—Boston Herald.

—The terrible thirst that torments the sufferers from many forms of disease is one of the things a nurse has to exert her thoughts to relieve. Pure, cold water, even when cold, does not relieve thirst so well as when there is some sort of substance added. Lemonade, toast and water, apple tea, or barley water, are preferable in many cases, as they all have a slight degree of nourishment.—Good Housekeeper.

—Picked Cucumbers.—Wash and wipe six hundred small cucumbers, and two quarts of peppers. Put them in a tub with one and a half cups of salt, and a piece of alum as large as an egg. Heat to the boiling point three gallons of cider vinegar and three pints of water. Add a quarter of a pound each of whole cloves, whole allspice, and stick cinnamon, and two ounces of white mustard seed, and pour over the pickles.—Yankee Blade.

—Alabaster figures are cleaned with the following mixture: One ounce of borax and a quart of boiling water. When cool, the figures are put in a tub with a silk handkerchief. If badly stained, try a paste of quicklime and water, and let it remain on for a day; then wash off in soap and water. Olive oil, occasionally applied with a soft woolen cloth, keeps the figures bright and ornamental. First clean off all of the dust.—Boston Budget.

—A Swedish servant-maid, finding that her mistress was troubled with sleeplessness, told her of a practice of the people of her country who are similarly afflicted. It was to take a napkin, dip it in ice-cold water, wring it slightly and lay it across her eyes. The plan was followed, and it worked like a charm. The first night the lady slept four hours without awakening, something she had not done for several months. At the end of that time the napkin had become dry. By wetting it again, she at once went to sleep, and it required considerable force to arouse her in the morning.

THE COMMON PEOPLE.

Old World Customs That Strike Americans as Preposterous.

In Europe, rank is first of all a question of birth. Mr. Gladstone must go to dinner after a boy if the boy happens to be a duke. This rule of precedence strikes the American as preposterous. Our countrymen have been so long rid of a privileged class of titled aristocrats that they can not understand how genius and eminent service may be reckoned after a mere family distinction. We believe in blood in this country, but we expect it to tell in achievement before it is accorded the first place of honor. It is true that Americans are sometimes accused, not always unjustly, of tuff-hunting; but the titled foreigner is sought after here because he is a *rare avis*, a social curiosity, and not because Americans are born with that instinctive deference to rank which is so general on the other side of the Atlantic. An hereditary legislature has always been impossible here. Strictly speaking, there are no common people except commonplace people. The rigidly of social forms, the drill of society, establish a conformity to etiquette which, however decorous, is not picturesque or otherwise interesting. The regulation uniform of society, the dress-coat and white cravat, may be defended upon certain grounds which we need not examine now; but there should be no tolerance for the affection of a tone, a mannerism, which is at war with every thing expressive of originality or even of individuality. We would not imply, of course, that people of good society are necessarily commonplace ordinals. Wit and humor are always welcome among sensible men and women; but we have remarked a tendency toward a fetish of forms, to set up a Draconian code on the authority of Mrs. Grundy, which is only too suggestive of another famous lady's "prunes and prisms." But commonplace people are not confined to any sphere of life. We find them wherever we look, from the peasant to the peer, and in the mental conservatism condemns the eccentricity of a new thought or an independent opinion. If a man does not enjoy the "Paradise Lost," if he is not enthralled by the genius of Addison or of Steele, we confess that we like to hear him acknowledge his treason frankly. There is more in him than there is in the solemn humbug who professes to admire every thing that has been said or thought to admire, and who has never in all his life been guilty of one honest criticism. Originality is the one essential uncommon thing in the world, and—though this may seem paradoxical—there is a great deal of it in the common people. Old great novelists seek it in remote country districts, in mountain fastnesses, in the lowly retreats of poverty and ignorance—wherever nature has a chance and people are free to think. It fascinates us because it is human rather than conventional. The society novelist essays a task of immense difficulty, for every body professes Sam Weller to Fitz Augustus Templeton De Vere, and society is never dramatic until, under the impulse of passion, it tears off its mask and forgets its rules. When we said just now that there were no common people except commonplace people, we meant merely that there is no common mold or brand of human nature. Twains are not so nearly alike that their minds do not know them apart, and nothing can destroy the impress of individuality but academic restraint and social discipline. It is a variety of talent and a variety of temperament that are provided by the joyous activity of progress, and it is the natural opposition of temperaments that endows human intercourse with its chief charm. Nothing could be more stale, flat and unprofitable than the conversation of inter-locutors who all thought and felt alike on every imaginable subject.

The flash of wit, the bright intelligence, the heart of song, the instinctive eloquence, are provoked by the contrast and the conflict of independent minds occupying different points of view.—N. O. Picaresque.

THE FAKIR'S CURSE.

A Prophecy of Evil That Came True With Crushing Effect.

James Mass, the traveler, tells this story: "It was about five o'clock in the evening, and Colonel Yeager and I sat on the veranda of the Victoria Hotel in Bombay, and on the edge of the native city which is called Veuilab, and not Bombay. The Colonel is dead; all that he once owned and loved is gone. He was expecting me to England on a year's visit, and the vessel was to arrive at Calcutta next day, while we were going to get the bungalow ready to receive them. The Colonel was in the best of spirits. He joked and laughed, and told old stories of love and war; how he was nearly captured and murdered by the renowned Nana-Said at Compoire; of his vast poppy plantations and the revenue he derived from the opium he distilled every year. Finally we started to walk to where we had our horses stabled, and then for a canter over the beautiful roads to the bungalow fifteen miles away. We had to go through Yliculab to reach our destination. What a landscape! The native city is a burrah-wallah water carrier, wearing nothing but a breech cloth, and the male body servant, with his red turban and long white jacket. Jews from Palestine, Parses, fire worshippers, who traveled 3,000 miles over desert and mountain from Persia and carried their sacred fires, all picturesque, all in white, bordered with red or other bright colors.

"Well, in turning a corner in Veuilab, we found a crowd being arranged by one of the best known fakirs in India. I had heard him spoken of as one who could put a blight upon you. People called him Sad-Sad, Sad, my master. Colonel Yeager pushed through the crowd to within a few feet of the fakir, to whom he said something in Hindustani. It seemed to enrage Sad, who jumped from his little platform in front of Yeager, saying:

"Be careful, be careful, or blight may fall upon you and yours. Treat not upon the smallest thing Buddha has created, or it may turn and sting you."

"Before I could stop him the Colonel had cut the fakir across the face, and with an angry shout: 'Out of the way, you Hindoo pig!'

"The fakir with blazing eyes said: 'Englishman, you will not meet your wife. You will not meet your child. Your plantations will be devastated; your crown will wither within you. You will die.'

DANGEROUS BUSINESS.

Perils of Cattle-Driving Over the South American Mountains.

On the top of the Cordillera we met with a drove of Argentine cattle, the first that had ventured over this season. The drover had hard work, and many a good ox leaves his bones on the road, proof of which we found in some skeletons we came across, picked clean by the condors, which frequent the mountain tops. We perceived several of these large birds hovering overhead, their immense wings extended and motionless, drifting on that rarefied air as if they were suspended from the stars.

We had seen a striking example of the dangers of the cattle-driving trade. An animal near us loosened a big round stone, which went bounding down the steep mountain side, right among the droves which was winding its way up. The mule singled out a big black ox as its victim, and, with a fearful crash, caught him full in the ribs and hurled him downward, racing in front of him, till both stone and ox lay immovable at the bottom, scarcely discernible by us above. In spite of the evident danger of a similar occurrence, we could not wait till the whole herd of about seven hundred animals had reached the summit, so, dismounting, we went on our way, finding good footing in the loose volcanic earth and stones, and in thirty minutes we had reached the valley. Halfway down we passed some broken trunks, which, with the mule that carried them, had fallen and rolled over some two hundred feet till stopped by a protruding rock. The mule had been badly hurt, Gentlemen's Magazine.

At Clatsop Beach.

Ethel—Oh, Charlie, I am so glad you came down. I want you to meet Mr. Lightfoot; he's the best dancer at the beach. There he is now.

Charlie (after a glance at the social lion)—What is his business?

Ethel—He is an artist from Portland. Do you know him?

Charlie—Yes, so he is; I shave at his shop.—West Shore.

His Excuse.
Police Justice.—John Scraggs, the last time you were brought before me, I warned you that if you ever came here again, I should give you a severe sentence.

Scraggs—I wouldn't have come here, Judge, only that fellow (pointing to policeman) brung me. It was his fault, entirely, yer Honor, and I hope you'll fine him heavy.—Light.

He Is One of Them.
"I see," remarked the poet's wife, that Bryant, Longfellow, Holmes and Lowell all had or have an income outside of the results of their literary work."

"Yes," replied her husband, "and I myself could not afford to write poetry if I hadn't a good situation at the ribbon counter."—N. Y. Sun.

One Job Lost.
Uncle Abner (entering)—Say, is this a barber shop?

The Artist.—Now, it's a tonsorial studio.

Uncle Abner.—Studio, eh? Wasal, if you're only stydin' I'll go further. I want a man that knows the trades!—Puck.

A Shrewd Business Man.
Grocer—Is there a good force of water on since the opening of the new aqueduct?

His Wife.—Splendid, my dear.

Grocer—Then that settles it. We must open a dairy in connection with our grocery store.—Munsey's Weekly.

A Bad Husband.
Housewife (testily)—Go 'way from this door, you old tramp! What do you want anyway?

Seedy-looking man (starting off)—I wanted to make you a call, I'm the new minister.—Drake's Magazine.

THAT TERRIBLE COUGH.
In the morning, hurried or difficult breathing, raising phlegm, tightness in the chest, quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption. Dr. Acker's English Cough Remedy will cure these fearful symptoms, and is sold under positive guarantee by H. B. GARNER, Druggist.

A Critical View.
Wife (showing her summer bonnet)—What a symphony of colors!

Musical Husband—Hardly a symphony, my love. It's too loud for that. —Lippincott's.

DO NOT SUFFER ANY LONGER.
Knowing that a cough can be checked in a day, and the first stages of consumption broken in a week, we hereby guarantee Dr. Acker's English Cough Remedy, and will refund the money to all who buy, take it as per directions, and do not find our statement correct.

For Congress
WILLIAM T. ELLIS,
of Daviess County.

The best thing for the Wheeler to do is to wheel into line for Ellis.

Congress has passed the anti-lottery bill, an iron-clad law prohibiting lottery companies from using the United States mails for any purpose.

Robt. Ray Hamilton, the New Yorker who figured in a big sensation last year, was killed last month while hunting in Montana. His body was found several days afterwards and identified.

Remember the primary election on Sept. 27 and urge upon Democrats to turn out and vote for Ellis. The larger the vote the stronger will be the endorsement of our able and efficient Congressman.

In to-day's paper will be found some mighty interesting talk from Dr. J. D. Clardy, in connection with the proposed nomination of a candidate for Congress by the Farmer's and Laborers' Union.

All of the white lead companies have entered into a trust and advanced the price of lead two cents per pound, discontinued rebates and withdrawn all equalizations of freight. Lead now costs the consumer ten cents per pound.

The great rivalry between the "Twin Cities" of Minnesota has at last been settled by the corrected census. Minneapolis has 164,780 and St. Paul 133,301 population. The first named city wins the contest for metropolitan supremacy by more than 30,000.

Mr. Dummell, of Minnesota, Chairman of the House Committee of the Eleventh Census, has introduced an apportionment bill on the basis of one Representative for each 180,000 population. This would provide for a total representation of 354. Under the apportionment Alabama, California, Colorado, Michigan, Missouri, New Jersey, Oregon, Texas, Washington and Wisconsin would each gain one member; Arkansas, Illinois, Kansas and Pennsylvania each two, and Minnesota and Nebraska each three. The only States to lose a Representative will be Ohio and Virginia, which would lose one each.

The State of Nevada, which had a population of 62,226 in 1880, now has but 44,327, a loss of 18,000. This rotten borough with a population but little greater than Christian county is nevertheless a sovereign State with as much power in the Senate as New York or Kentucky. Nevada should be relegated to the territorial stage or made a county of some adjoining State. It possesses a vast area of alkali plains and sterile sand hills and is only inhabitable along the few small streams and in the mining regions of the mountains. It produces nothing worth speaking of but Republican majorities.

Company B. of the Third Regiment of State Guards, Owensboro, is so much displeased at the partiality shown the Louisville Legion this year in the encampment matter that Capt. S. H. Ford and all of the other commissioned officers have resigned, and the company is going to pieces and will not elect other officers. The Messenger takes occasion to criticize the Administration in the following very pointed language:

"The administration of Gov. Buckner has been a conspicuous success in every department except that of the military. There it has been a conspicuous failure and it appears that the further it goes the worse it fares. The military establishment of the State is now well-nigh a thing of the past, and if the present state of affairs rules much longer it will be in a case of something worse than innocent desuetude."

Peterson's Magazine for October is on our table. The steel engraving "Before the Battle" is a very handsome picture presenting the portraits of Minna Irving, the popular poetess and her soldier husband. The fashion-plate and illustrations, present some new effective fall styles. The needle-work designs are varied and effective. The literary part of the number is excellent, and can only be equalled by the highest priced periodicals. The opening story "One October Morning" is well illustrated and well written. "Imprisoned Rainbows" by Louisa Janison closes a series of interesting articles on precious stones. "The watch of the Big Heart Lodge" by M. C. McClelland is one of the best stories we have read in a long while, and "Three Warnings" by Lucy H. Hooper will fascinate every lover of the supernatural. "Things Worth Knowing" and the household department are brim full of interesting and useful matter. This favorite magazine always grows better and better. Terms, Two dollars a year. Address, PETERSON'S MAGAZINE, 306 Chestnut St., Philadelphia.

INDICTED.

At 4:15 yesterday afternoon the Grand Jury returned several indictments against C. M. Brown, O. S. Brown and John Boyd.

CIRCUIT COURT PROCEEDINGS.

Harry Buckner, col., charged with malicious striking and wounding, was found guilty as charged and given one year in the penitentiary. Buckner had a fuss with another boy while in a game of base ball several months ago, and struck him with a base ball but inflicting injuries of a serious nature. He was arrested and tried before Esquire Davison and sent to the work house for two months. He served out the term when the matter was laid before the grand jury and he was promptly indicted and the indictment sustained as above stated.

The case of Harry Clark, charged with malicious cutting, comes up for trial to-day.

Finis Reynolds, carrying a concealed deadly weapon, was given 10 days in jail, together with the usual fine—\$2.

Jas. Hughes, grand larceny, crime reduced to petit larceny, and prisoner sentenced to hard labor for twelve months. Hughes was immediately sent to the work house to serve out his sentence.

Geo. Robinson, col., for stealing G. H. Stowe's gold watch, was given 2½ years in the penitentiary, yesterday.

Very few civil cases disposed of this week.

For many years Mr. B. F. Thompson, of Des Moines, Iowa, was severely afflicted with chronic diarrhoea. He says: "At times it was very severe; so much so, that I feared it would end my life. About seven years ago I chanced to procure a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It gave me prompt relief, and I believe cured me permanently. I now eat or drink without harm anything I please. I have also used it in my family with the best results. For sale by Buckner Leavell."

CITY COURT NEWS.

Jim Hargraves, restaurant keeper, gambling, fined \$10 and costs. Debt satisfied.

Ed Cole, similar offense, dismissed. Jas. Ratcliffe, col., breach of peace, fined \$10 and costs, paid.

Press Vanecey, drunk, fined \$5 and costs, paid.

Geo. Morris, c. e. d. w., fined \$25 and costs, satisfied.

Tom Hudson, an inmate of the Poor house, drunk, ordered sent back.

Mack Wright, col., breach of peace, fined \$8.50, reprieved.

Geo. Coleman, col., same, fined \$7.50, sent to work house.

Jno. Davis, c. e. d. w., fined \$25. Sent to work house. Davis was passing through the city on the cars, enroute to Mississippi and alighting on the platform near the depot made himself so obnoxious that he was ordered by the police to get back on the cars, which he refused to do, and showing fight was taken to the lock-up, where he was searched and a pair of brass knuckles found concealed.

Davis was very drunk and had been creating a disturbance on the cars before reaching this point.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

TOLSON, O., Jan. 10, 1887.
Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence as success I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions. Yours truly,
L. L. GORSUCH, M. D.,
Office, 215 Summit St.

We will give \$100 for any case of Catarrh that cannot be cured with Hall's Catarrh Cure. Taken internally.

Roy Wilkes, who lowered his own record to 2:08½ last week, and beat the trotting record of Maud S. by half a second, is a pacer and it was in that gait he made his 2:08½. Maud S. still stands unbeaten as a trotter. The papers generally did not explain this when giving the result of Roy Wilkes' race. Roy is by Adrian Wilkes, son of Geo. Wilkes; dam said to be Blue Bull—Farmers Home Journal.

Capt. W. A. Abbott, who has long been with Messrs. Percival & Hutton, Real Estate and Insurance Brokers, Des Moines, Iowa, and is one of the best known and most respected business men in that city, says: "I can testify to the good qualities of Chamberlain's Cough Remedy. Having used it in my family for the past eight years, I can safely say it has no equal for either colds or croup." 50 cent bottles for sale by Buckner Leavell.

There would be far less complaint against the whiskey business if people who drink would demand a fine whiskey, of a standard brand, and accept no other. There are many straight and well matured whiskeys on the market, but no other stands so high with medical fraternity, and with connoisseurs as the celebrated I. W. HARPER WHISKEY, of Nelson, County, Kentucky.

CROFTON.

CROFTON, Ky., Sept. 15.—The gang of thieves who have been the terror to the merchants here for two years began their work again Saturday night, effecting an entrance into the store of Adams, Boyd & Co., in their favorite way by boring around the bolt that fastened the window at the bottom. The amount of goods stolen cannot be estimated yet, as the clerk is out of town. It is very evident that the work was done by some one who knew that their clerk, Mr. J. M. Durham, always goes to the country every Saturday night.

Mr. Reece's little son, George, was playing around him Sunday morning while he was strapping his razor when the little boy fell on the razor, cutting his arm to the bone near the wrist and severing the radial artery, from which he lost a great deal of blood before medical aid could be summoned. Died, Sunday morning, Sept. 14, Mrs. Martha Kelly, at the residence of her father, Mr. O. A. West, Sr., of disease of the spinal cord. For seven weeks she had been unable to retain any nourishment. She leaves a father, mother, sister and two brothers and a host of friends to mourn their loss. To them we extend our condolence, and would say grieve not, for your loss is her gain and to-day from the battlements of Heaven she beckons you on to join her in a home where there will be no more parting.

Mr. and Mrs. L. D. Burkholder, of your city, visited J. M. Dulin's family Saturday.

Miss Lula Rice, of Kelly's, made a flying visit to relatives here Saturday.

Mrs. Jas. Stuart, of Pembroke, Ky., was visiting relatives here last week. Revs. Burnett and Dorris are conducting a protracted meeting at the Baptist church here and there is much interest being manifested.

Miss Mary Warfield is home from a three weeks visit to Mont Eagle and other southern summer resorts.

W. H. Whitlow had some sweet potato vines Friday which were full of beautiful pink blossoms. A curiosity evidently caused by the late warm rains.

Mrs. John Fruit and her daughter, Miss Annie, were guests of Mrs. Will Whitlow Friday.

Miss Jennie Vanecey is visiting Hopkinsville friends this week.

Mrs. S. W. Taliaferro and Miss Jennie Taliaferro of Guthrie are visiting Hon. W. E. Warfield's family.

A Cure for Paralysis.

Frank Cornelius, of Parsons, Ind. Ter., says: "I induced Mr. Pinson, whose wife had paralysis in the face, to buy a bottle of Chamberlain's Pain Balm. To their great surprise before the bottle had been used she was a great deal better. Her face had been drawn to one side; but the Pain Balm relieved all pain and soreness, and the mouth assumed its natural shape." It is also a certain cure for rheumatism, lame back, sprains, swellings and lameness. 50 cents bottles for sale by Buckner Leavell.

DEATHS.

Mrs. Mary A. Pelham, daughter of R. and E. Roake, died Saturday of hemorrhage. She was the wife of Mr. Frank H. Pelham, of Nashville. She leaves an infant a few days old. Mrs. Pelham was in the 28th year of her age and a member of the Baptist church. She was buried in the City Cemetery.

Jno. Kelly, an inmate of the poor house, died last Saturday, of liver trouble, aged 37 years.

Jno. W. Weston, in the city, of flux, aged 68 years.

The Primary September 27.

The primary election set for Sept. 27 will not be called in. This has been decided upon by the proper authorities. The KENTUCKIAN has not thought it advisable to hold this election since Mr. Givens' withdrawal, L. L. that is no longer a question for discussion. The election will be held as first decreed and it behooves the Democrats to begin to take steps to get out a full vote. The fact that Mr. Ellis is without opposition should not cause indifference or carelessness, but let a full vote be polled and the nominee be given the flattering endorsement his good record deserves. Pro-tem Committees will at once take charge of the work of organization and see that there is no lack of interest in the party ranks.

Rev. Virgil Elgin, of Morganfield, Ky., spent several days of this week in the city visiting relatives, en route to the Methodist Conference at Bowling Green, now in session.

What Does It Mean?

"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

The Lecture Course.

The Chautauquans are engaged in completing their list of winter entertainments. Haney, Burdette, Davidson and the Harvard Quartette have already been signed. It is desired that all who will take season tickets will give their names this week to John B. Galbreath, so the Committee may know how much money will be at their disposal. If a good number of subscribers is secured the number and quality of the entertainments will be correspondingly increased. The last season was a prosperous one.

Clarksville's Population.

The Leaf-Chronicle of Tuesday contains this explanation of why Clarksville's population is only 4,529: "Thus it stands. The census enumerators have taken the population of the old city and reported 4,529. This has been sent in as the population, and 3,900 people living in the new territory are not included in the official report. The population of Clarksville is 7,829, and nothing short of that will satisfy her citizens. Unless this report is changed Clarksville will be put down as gaining about 600 souls in ten years, when she has really increased 3,900, or over 100 per cent."

Grating that all this is true, the fact remains that the increase in the original city limits is only 600. Of course the added territory represents no actual increase. Now let's make a comparison. In 1880 Clarksville had 3,900 people and Hopkinsville 4,229. Clarksville now has 4,529, an increase of 600 and Hopkinsville has 5,800, an increase of 1,600. Clarksville has suburbs recently annexed with 3,900 people, while Hopkinsville has suburbs, not annexed with equally as many people. We have all along contended that the figures would not sustain the boastful claims of Clarksville's papers. The population of the Clarksville magisterial district in 1880 was 7,513 and of the Hopkinsville district 7,150. They were about equal then, with the advantage slightly in favor of the former. Clarksville has increased 16 per cent. in ten years and Hopkinsville 40 per cent. Now applying the same rates to the districts, Clarksville, including suburban population, has 8,483 and Hopkinsville 10,010. The number of voters in the Hopkinsville district—about 2,000—is evidence that these figures are not too large and taking all the evidence at hand there is no doubt that Hopkinsville, with the commercial advantages against her, has outstripped Clarksville and now has nearly 2,000 more people in and around the city than its neighbor across the border.

CREAM OF NEWS.

Dr. Clardy Snubbed.

President Clay, of the Constitutional Convention, announced his Committee's Wednesday. There are 24 of them and all of the more prominent members are given chairmanships excepting Dr. Clardy. The reason assigned for this is that Mr. Clay will be a Farmers' candidate for Governor and wants to keep Dr. Clardy, a probable rival, in the background. The Christian county member is given the second place on Corporations and fourth on Revenue and Taxation.

Pythian Officers.

The Grand Lodge, K. of P., in session at Bowling Green, elected the following officers: Grand Chancellor, J. W. Pryor; Vice Chancellor, R. B. Andrews; Prelate, D. T. Hamill; Keeper of Records and Seal, Geo. Glendon; Master-at-Arms, R. W. Crabb; Inner Guard, Julius John; Outer Guard, W. T. Weldon; Supreme Representatives, J. W. Carter, of Owensboro, and Edward Atkinson, of Henderson.

Mr. A. D. Rodgers, of Evergreen Lodge, came within one vote of being elected Grand Master-at-Arms.

The Men Didn't Lay.

The O. V.'s secret meeting Tuesday was held not in New York but in Evansville and the following report shows that we no longer have anything to expect from that company: "There was a meeting to-day of the directors of the Ohio Valley railway, those present being President Kelsey, Secretary and Treasurer Giles, Arthur Carey, of Louisville, and Samuel Brown, of Pittsburgh."

The meeting was secret, and the officials refuse to make its nature known. Rumors are to the effect that a crisis has been reached in the road, and that Eastern parties connected therewith are in a state of revolt, and that startling developments may be looked for in a short time. Officials here deny the stories, but still refuse to make known the nature of to-day's meeting.

Now let us cease to fool with the O. V. any longer, but all pull together for the new proposition. Will the directors of the local company proceed to act?

Both Legs Cut Off.

Frank Hughtlett, a section hand on the L. & N., whose home is at Kelly, Ky., was run over by the 5 a. m. passenger train Tuesday morning at the 7th street crossing and had both legs crushed below the knees. Hughtlett had boarded the train at some station above and when the train began to slow up jumped off. He alighted on slanting ground and his right foot slipped and his toe was caught by the wheel. In being dragged along his head and body were badly bruised and after being thumped along the track for about twenty feet his other leg was caught just below the knee and the whole member crushed into a jelly. The train passed on and Hughtlett was not discovered until a colored girl gave notice of the accident. Mr. R. E. Cooper and others soon reached him and he was cared for as speedily as possible. He was taken to Mrs. Z. J. Mitchell's boarding house, where Drs. Blakey and Stites amputated the limbs, the right leg at the ankle and left below the knee.

Hughtlett is about 30 years old and has a wife and several children. At last accounts yesterday he was getting along well and will most likely recover.

Mysteriously Brained.

Joe Vaughan, col., was found dead on the railroad near Casky soon after the noon freight passed Tuesday. The only wound was a hole in the top of his head, from which the brains were oozing. The scalp was cut for three inches and the skull crushed around the hole. The first theory was that Vaughan was killed by the cars, but the fact that there was a hole in the top of his hat corresponding to the wound on his head excited suspicion and Bill Callis and Isham Jackson, both colored, were arrested Wednesday on suspicion, as they were seen leaving the vicinity just before the body was found. They were tried before Judge Brown yesterday and released for want of evidence, but the Grand Jury is investigating the affair further.

Vaughan lived in Hubbardsville and had been in Alabama at work. He returned at 10 o'clock and the check punched to Hopkinsville was still in his hat. He got off at Casky and after remaining about the station started towards town. When found he had \$17 in his pocket and a half-eaten pear was lying by him. This is against the theory that he was murdered over a game of cards. The many seems to be deeply involved in mystery.

Vaughan was about thirty-five years old and has a family.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

A Card of Thanks.

Mr. and Mrs. R. Roake, parents of Mrs. Mary A. Pelham, and Mr. F. H. Pelham, her husband, desire to return their thanks to the many friends who rendered such kind services and showed so many courteous attentions upon the occasion of her death on the 13th inst. Especial thanks are also returned for the many handsome floral offerings from sympathizing friends.

Wm. Major preached his first sermon at the Baptist church here Sunday night. The occasion and circumstances were naturally embarrassing, but he went at it like a man with the holy spirit and full of zeal for the Master's cause. His text was the latter part of the 12th verse of the first chapter of Second Timothy.—Clarksville Leaf-Chronicle.

MATRIMONIAL.

FORBY—GARNETT.

Pembroke had an elopement the first of the week with some features not only romantic but rather on the sensational order. Will E. Forgy, a 19-year-old son of Rev. S. P. Forgy, and Miss Fannie Garnett, daughter of Mr. W. W. Garnett, a pretty and popular young lady and an only child, were the principals. Miss Garnett returned from Louisville Saturday night, to which place she had gone to purchase a wedding outfit. She was making preparations to be married to a gentleman in Winchester, Tenn., about the middle of October. Her approaching marriage was approved by her father and the unexpected elopement of the soon-to-be bride with another sweetheart on Sunday fell upon the little town like a thunderbolt from a cloudless sky. Early that afternoon Mr. Forgy called in a buggy and the couple left to go to see Miss Jones, who was also arranging to marry in a few days. This was not an unusual occurrence and aroused no suspicion and the news that the young people had driven straight to Clarksville and had been married by Dr. Sears was received by Mr. Garnett with great surprise and pronounced displeasure. He declined to forgive his daughter and the newly married couple remained in Clarksville two or three days and then went to Elkhon where they are at present making a visit to the groom's brother, Mr. S. Walton Forgy.

Both of the young people belong to prominent families, the bride's father being a banker of Pembroke and one of the wealthiest citizens of the county.
